Residential Land, Alethriko Village in Larnaca €240,000 +VAT

 Alethriko, Larnaca

This piece of land has a large frontage and is also close to all amenities. It may be developed in 5 separate building plots or more, at a low cost since it is close to electricity, amenities and abides at an asphalt road. Alternatively it can be developed into a unified residential project of around 10 separate houses or apartment blocks.

It is also located in a very nice neighborhood with mostly newly constructed houses. The location is very close to the highway just at the midpoint of the three largest cities - Larnaca, Limassol and Nicosia, thus all cities are just 15 mins away.

Area

 3600 m²
